Scientific Notation in Real Life

- 1. Create a collage with at least 6 interesting facts that include numbers. Make a title.
 - a. Each fact must contain a 6 digit or more number when written in standard form.

i. Ex: 8,000,000

- b. Each fact will need:
 - -Title
 - -Illustration
 - -Short explanation of fact (must have at least 4 complete sentences)
 - -Standard form (labeled individually in a box and underlined in explanation
 - -Scientific Notation (labeled individually in box and underlined in explanation
 - -A word problem using the scientific form of the number
- 2. On a separate sheet of paper, all 6 of your questions need to be written out and answered.
- 3. Choice how you want to display this:
 - -Construction Paper
 - -Google Slides
 - -Other ways can be approved by teacher
